REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the closest prior art of record, namely Schmid and Murphy, fail to properly teach or suggest the use of a NaSICON electrolyte component capable of surface sanitation as in claims 91 and 92, nor the specific choice of a solid electrolyte component having a ionic conductivity as claimed in the independent claim 93. Applicant's arguments submitted 5/11/2006 are found to be fully persuasive..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/11/2006 has been entered.
